4 March 1963

MEMORANDUM FOR: Deputy Director (Research)

SUBJECT : Weather Briefing for the DCI

25X1A

At 2:30 p. m. on the 4th, a briefing was held with the DCI explaining our weather forecasting system. Special emphasis was then applied to the infamous period between September and October of last year. A large party was in attendance, including Helms, [REDACTED] Earman, Kirkpatrick, Lundahl, et al. The Director requested some weather statistics be prepared for his discussions on the Hill. The Director was specifically interested in the reasoning behind our schedule of flights during this period, special emphasis being upon what sort of restrictions were placed on these flights and how they fitted in with the weather pattern.

EDWARD B. GILLER
Acting Deputy Director
